

# How do you find **security** and **safety** in an evolving market?

**You join States.**

**OUR GOAL IS A LONG-TERM PUBLIC  
ENTITY RISK MANAGEMENT  
PARTNERSHIP, NOT MARKET SHARE**

States, as a group captive, is a member-owned insurance company domiciled in Vermont. For over 20 years, the Company has operated as a **financially strong**, well-managed and highly-regulated national program providing its members with a broadly interpreted coverage form that is second to none in the industry.

States members receive excellent claims and loss control support and specialized public entity-oriented services from an experienced, service-driven staff of professionals. Our "Partners in Protection" have a long and proven history of reliability, accountability, and well-earned trust. Despite challenges in the economy, States has maintained premium stability and continues its record of sound financial results for partner members.

The States concept works. Premiums paid by members are investments in their own Company. States' focus is to be a viable, long-term solution for its owner-members. **Dan Hurley**, one of these owners, is proud to be a part of a **public entity** risk management success story.

We know you will be too.

*Dan Hurley*
